

ELECTRONIC TECHNICIAN

We are :

Nüvü Camēras Inc. is a high-tech company that manufactures and develops ultra-sensitive low light imaging solutions for ground and space-based applications. Our photon-counting imaging expertise meets the demanding needs for many leading-edge applications such as those for life science diagnostics, night vision, quantum communication and computing as well as manufacturing quality control, to mention just a few.

Based in a very convenient area of Montreal, the company has shared its expertise through highly referenced publications, with renowned international clients and within innovation alliances at the cutting edge of technology and science.

Recognized globally as a leader in its field, Nüvü Camēras is expanding rapidly and seeks to expand its dynamic, creative and professional team.

You are :

Interested in diagnosing and solving electronic challenges?

Insatiable to learn in a constantly evolving environment?

Motivated to contribute to the success of an SME at the cutting edge of technology?

Do you have several of the following skills ?

Excellent manual dexterity ;

Ability to take electrical measurements;

Experience in electronic diagnostics and debugging;

Effective time management skills;

Ability to work as part of a team;

Autonomy when work instructions are defined;

Ability to read technical detail and assembly drawings;

Knowledge of analog and digital circuit design;

Knowledge of C language;

Communicates clearly, orally and in writing, in French or English.

Then this electronics technician position may be for you.

Position Summary :

As part of the manufacturing process of our cameras, the role of the new resource is to oversee the verification of electronic subsystems and electronic assembly and soldering activities. In order to evolve throughout the entire life cycle of an innovative company, the resource must demonstrate an ability to manage priorities, be recognized for a keen eye for detail, and be consistently rigorous in the methodology of his/her work.

This job will require a good grounding in electronics to take on tasks requiring compliance with pre-established work instructions, while maintaining a critical eye. The successful candidate will be part of a passionate technical team recognized for its expertise, including engineers, scientists and technicians, as well as other highly qualified professionals.

Specific Responsibilities :

- Adjust electronic circuits of imaging products;
- Perform electronic functionality and verification tests using oscilloscope and microscope;
- Inspect, clean and maintain inventory of certain electrical components;
- Ensure compliance with laboratory manipulations;
- Enter production data into implemented tools;
- Report observed non-conformities;
- Contribute to diagnosis and repair of imaging products;
- Participate in various continuous improvement exchanges;
- According to production needs and priorities, prepare or check the fitting quality of imaging products:

workstations,

equipment.

Education & Experience :

Diploma of College Studies in electrical engineering or physics or any other relevant diploma will be considered.

Minimum 3 years' relevant experience in electronic circuit repair. Experience in space electronics is an asset.

Terms:

Full-time, permanent position with a flexible daytime schedule from Monday to Friday at approximately 37.5 hours per week;

Fixed salary depending on profile;

Competitive group insurance;

Innovative eco-responsible environment with qualified and passionate colleagues;

Strategic location at the junction of Griffintown, the Old port and Downtown Montreal neighborhoods, offering easy access for bicycles (bike path and shower available) and pedestrians, with proximity to all types of public transit (subway, bus, train, REM, Bixi);

Access to ETS privileges such as sport center, cafeteria, parking, discount at local restaurants and stores, etc.

Memorable social activities.

If this position interests you, please send your Curriculum Vitae and letter of intent to careers@nuvucameras.com.

We ask that candidates withhold from calling, as the numerous applications received do not allow us to respond to everyone.

We thank you for your interest and will contact you if your application is successful.
